Intellectual Property Cell

Intellectual Property (IP) is important for any institution which provides competitive edge in the field of research and Development. Alva's College has recognized importance of IP and it is committed to encourage the creativity and novelty of its students and staff. This will lead to development of intellectual property. The IPR cell is dedicated to encourage and guide students and staff members to develop innovative findings and protect these invocations.

Main Objectives of IPR cell are as follows:

- To create awareness about Intellectual Property Rights
- To conduct workshops /seminars on Intellectual Property Rights
- To advise and guide students and faculty on importance of IPR with the help of authorized Patent authority
- To encourage patentable inventions and
- To facilitate patenting of patentable inventions.
