## Report Of Workshop On Personality Development.

In this competitive world personality development has become the need of the time. People with knowledge may also fail sometimes because of lack of personality development. In order to become successful in life knowledge together with personality development is the master key.

The students of III B-com 'C' had conducted the workshop on Personality Development by Mr. J.C. RATENDRA BHAT, KARKALA, was conducted in a beautiful way. His talks on the need for it were worth listening and putting into action. The examples which he used during his talks were not just imaginary but practical also. The workshop was not just a platform for fun but it was ~~not~~ an opportunity to all to show their talents. The workshop basically focused on innovation, creativeness, observation, leadership qualities and finally good communication skills.

The workshop was not just a one way communication. The activities that he conducted were really good. As they were group activities it helped us to know how to mingle with people. It stressed on team building and team work. It made us aware of our positives and negatives and provided an opportunity to work on our negative things. The activity also recognised the outstanding performance in the group.

Making aware the importance of personality development through activities is the best way because it requires the participation personally. As it is said just words can't change us it becomes fruitful only when we put into action what we have listened. So it is necessary to put into action to achieve success. But ~~it~~ it helped us to ~~know~~ know where we stand and
