Program: Program on Home sickness

Mind-view Forum had organized an interactive session on “Home sickness “by Ms. Vishaka and Ms. Manasa, students of 3rd B.A EJP. They had presented a module on Home sickness with relevant activities.

They focused on Hostel adjustment, resilience and other positive aspects necessary for stress free life. Students of the Forum also interacted with them very well. The topic was very apt for the students as there were many fresher students. Overall the feedback of the students was satisfactory. Forum also gave platform for Psychology students to reach out to the youth with their Modules.
