Forum Event : Two point perspective

Two point perspective

Two-point perspective is a drawing technique that creates the illusion of three-dimensional space on a two-dimensional surface. Unlike one-point perspective, which has a single vanishing point, two-point perspective utilizes two vanishing points on the horizon line. This allows for a more dynamic and realistic representation of objects, particularly those with multiple sides visible to the viewer.

Key features of two-point perspective:

- **Two vanishing points:** These points are located on the horizon line and represent the points where parallel lines converge.
- **Horizon line:** This imaginary line represents the eye level of the viewer.
- **Vanishing point lines:** These lines extend from the corners of the object towards the respective vanishing points.
- **Vertical lines:** These lines remain parallel and do not converge.

- **Finger Blending:** The warmth of your finger can smoothly blend colors directly on the paper. Apply light pressure and gently rub.
- **Paper Towel/Tissue:** Use a folded paper towel or tissue to blend larger areas or create smoother transitions.
- **Blending Stumps/Tortillons:** These tightly rolled paper tools allow for more precise blending and can reach smaller areas.
- **Solvents (Oil Blending):** For a painterly effect, you can use a brush dipped in a small amount of mineral spirits, turpentine, linseed oil, or baby oil over the pastel. This dissolves the pastel, allowing for smooth blending and transparent washes. Use sparingly as too much can make the paper greasy

Forum Event : Oil pestel landscape paintings

Oil pastels are a fantastic medium for creating vibrant and expressive landscape paintings. Their creamy texture and blendability allow for rich colors, interesting textures, and a spontaneous feel. Here's how you can approach oil pastel landscape paintings, along with some key techniques and considerations:

Key Characteristics of Oil Pastels for Landscapes:

- **Vibrancy:** Oil pastels offer intense, saturated colors that can truly make a landscape pop.
- **Blendability:** They blend easily, allowing for smooth gradients in skies, water, and distant hills.
- **Texture:** You can apply them thickly to create impasto effects, mimicking the texture of foliage, rocks, or water.
- **Layering:** Building up layers of color is essential for depth and richness.
- **Expressiveness:** The direct application allows for bold strokes and spontaneous marks, giving a lively feel to your landscapes.

Painting artist history and slide show

Mf hussain, ravi varma ,vincent van ghage artist .

M.F. Husain is famously associated with his series of paintings depicting horses. These works are characterized by their powerful, dynamic forms, often rendered with strong, sweeping brushstrokes and vibrant colors. The horses in his paintings symbolize freedom, vigor, and often have a mythological or historical resonance within Indian culture. While there isn't one single "Horses" painting, the recurring motif is iconic.

This iconic painting depicts a scene from Kalidasa's famous Sanskrit play, "Abhijnanashakuntalam." Shakuntala, the protagonist, is shown pretending to remove a thorn from her foot while subtly stealing a glance at her lover, King Dushyanta. The painting beautifully captures her grace, emotion, and the lush Indian landscape, showcasing Ravi Varma's mastery in blending naturalism with Indian narrative.

"The Starry Night" is arguably Van Gogh's most famous work. It depicts the view from the east-facing window of his asylum room at Saint-Rémy-de-Provence, just before sunrise, with the addition of an imaginary village. The swirling, expressive sky, dominated by a luminous crescent moon and vibrant stars, and the dark, flame-like cypress tree in the foreground, create a powerful and emotionally charged scene, characteristic of his unique style.

Warli art is an ancient tribal art from Maharashtra, India, primarily practiced by the Warli community. Its minimalist style uses basic geometric shapes—circles, triangles, and squares—to depict nature and daily life. Traditionally, it was done on mud walls with white rice paste. The most renowned Warli artist is Jivya Soma Mashe (1934-2018), credited with elevating Warli art from ritual to mainstream recognition. His work earned him national and international acclaim, including the Padma Shri. Other notable artists include Balu Mashe and Anil Vangad.

Student interaction during drawing activities fosters a dynamic learning environment, promoting peer learning and critical thinking. Collaborative Drawing In collaborative drawing, students work together on a single artwork, negotiating ideas, sharing techniques, and resolving creative differences. This direct interaction enhances communication skills and mutual understanding. During group critiques, students present their drawings to the class and receive feedback from both peers and the instructor. This public interaction builds confidence, teaches students to receive criticism gracefully, and exposes them to diverse interpretations and approaches. It allows for a rich exchange of ideas on artistic intent and execution.

Annual Report 2024-25 National Cadet Corps (NCC) Air Wing – Flight B Alva's Institute of Engineering and Technology, Mijar.

Introduction

The National Cadet Corps (NCC) Air Wing, Flight-B at Alva's Institute of Engineering and Technology (AIET) has had an eventful and productive year (2024-25). With the motto "Unity and Discipline," our cadets demonstrated exceptional dedication, discipline, and enthusiasm in a wide range of training programs, social service activities, and national-level camps. This report outlines the major activities and achievements of our unit over the past year.

Unit Details

- **Institution Name:** Alva's Institute of Engineering and Technology, Moodbidri
- **NCC Subunit:** Air Wing, Flight-B
- **Under Unit:** 6 Karnataka Air Squadron NCC, Mangalore
- **Total Strength:** 1000 cadets (including 1 Senior Under Officer and 2 Cadet Under Officers)
- **ANO:** Associate NCC Officer Ashok

Training Activities

Throughout the year, cadets underwent rigorous institutional and practical training sessions. Key aspects include:

1. Drill and Parade Training:

Weekly parade sessions focused on improving discipline, posture, and teamwork total 18 Saturday we have to conduct during the year 2024-25 and during parade we have to give refreshments for 100 cadets.

2. Aero modelling Sessions:

3. Theory Classes

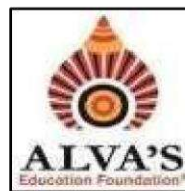

As part of the NCC Air Wing training, cadets are introduced to key subjects such as **aviation history, meteorology, air navigation, and airframes**, which lay a strong foundation for understanding the field of aviation. **Aviation history** familiarizes cadets with the significant milestones, inventions, and pioneers who contributed to the development of air travel. **Meteorology** helps cadets understand weather conditions, cloud formations, wind patterns, and their importance in aviation operations. **Air navigation** equips them with skills in map reading, use of compasses, and understanding navigation aids to plan and follow flight paths effectively. **Airframes** training provides knowledge about the basic structure and components of an aircraft, including wings, fuselage, and landing gear, as well as their function in flight. These topics enhance the technical knowledge of cadets and spark interest in careers related to the Indian Air Force and aviation sector.

4. Rifle Training:

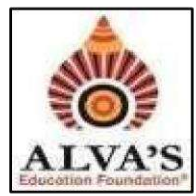

As part of the NCC Air Wing training, cadets underwent rifle training focused on the basics of rifle handling and strict safety procedures. This training aimed to develop discipline, focus, and confidence among cadets. They were taught the correct methods of holding, aiming, loading, and unloading the rifle, along with the importance of maintaining proper stance and trigger control. Special emphasis was given to weapon safety protocols, such as muzzle awareness, clearing the weapon, and following range commands. The training helped cadets understand the seriousness of handling firearms and prepared them for future marksmanship and ceremonial drills, reinforcing the core values of responsibility and alertness essential in the Air Wing.

5. Aero Modelling Programme in ATC Camp.

Aero Modelling training is an exciting and integral part of the NCC Air Wing curriculum, designed to introduce cadets to the fundamentals of aviation technology through hands-on experience. This training involves building, designing, and flying model aircraft, which helps cadets understand aerodynamic principles, aircraft structure, and control mechanisms. It enhances their creativity, technical skills, and teamwork while fostering a deep interest in aviation. Through practical sessions and guided demonstrations, cadets gain insights into lift, thrust, drag, and stability — the key forces in flight. Aero Modelling not only instils discipline and precision but also inspires cadets to pursue careers in the field of aeronautics and defence services

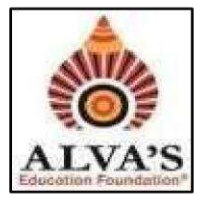

Control line aero modelling is a fascinating aspect of aero modelling training in NCC, where cadets learn to fly model aircraft that are tethered to the pilot by two control lines. These lines allow the operator to control the aircraft's pitch by moving the handle, enabling the model to climb, dive, or fly level in a circular path. Unlike free-flight or radio-controlled models, control line models require the pilot to physically follow the aircraft's movement in a circular area, which improves reflexes, coordination, and understanding of flight mechanics. This type of training teaches cadets about basic flight controls, engine handling, and structural design, while also building patience, focus, and technical aptitude. It is an excellent foundation for those aspiring to delve deeper into aviation and aeronautical engineering

6. OBSTACLE TRAINING:

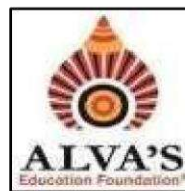

Obstacle training is a physical training method that focuses on overcoming various physical challenges, typically designed to enhance strength, endurance, agility, and mental toughness. This type of training is commonly used in obstacle course races (OCR) such as the Spartan Race and Tough Mudder, military training, fitness programs, and even rehabilitation settings. The main purpose of obstacle training is to push individuals beyond their usual limits by combining functional movements, cardiovascular challenges, and strength-building exercises. Participants navigate through obstacles like climbing walls, crawling under barriers, or swinging from monkey bars, all of which target different muscle groups and improve coordination. Physically, this type of training promotes full-body strength, endurance, and flexibility, while also enhancing mental resilience, problem-solving, and focus. Whether for general fitness, team-building, or competitive racing, obstacle training offers both psychological and physical benefits, building confidence, mental toughness, and a strong sense of accomplishment. Moreover, it is a versatile form of exercise, suitable for people of all fitness levels, as it can be scaled to suit beginners or advanced athletes.

7. Camp Participation:

Our cadets actively participated in multiple NCC camps at state and national levels:

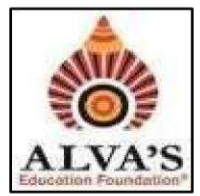

- Annual Training Camp (ATC):

The Annual Training Camp (ATC) is one of the core camps conducted by the National Cadet Corps (NCC) and is mandatory for all cadets during their training period. Held at the unit or group level, ATC typically spans 10 to 12 days and focuses on the overall development of cadets through a structured schedule of physical training, drill, weapon training, map reading, field craft, and theory classes on NCC subjects. The camp also includes activities like cultural events, group discussions, and social service programs to build leadership qualities, team spirit, and national integration. Cadets are trained in discipline, self-reliance, and responsibility while experiencing a regimented lifestyle similar to that of the armed forces. ATC plays a crucial role in preparing cadets for higher-level camps such as the Republic Day Camp (RDC) and the Thal Sainik Camp (TSC)

52 cadets from our Flight-B attended the ATC held at SJEC College Mangalore from 24-05-2025 to 02-06-2025.

The Republic Day Parade Camp (RD Camp) is one of the most prestigious and sought-after camps organized by the National Cadet Corps (NCC). Held annually in New Delhi, this camp brings together the best cadets from all over the country who have excelled in various selection levels at the group, directorate, and national levels. The camp typically runs from early January till the Republic Day on 26th January. During this period, cadets undergo intensive training in drill, cultural activities, public speaking, and national integration programs. A major highlight of the RD Camp is the grand Republic Day Parade at Rajpath, where selected NCC cadets get the honour of marching alongside the armed forces. The camp promotes discipline, unity, and national pride while offering cadets a once-in-a-lifetime opportunity to represent their state and NCC Directorate on a national platform in the presence of dignitaries, including the President and Prime Minister of India

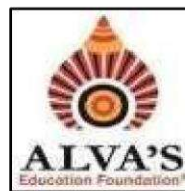

From Our Flight – B of AIET this year 4 cadets participated in Republic Day parade Held at Delhi LFC Prashasthi participated in Karthavya path contingent and Cdt Jevita Pearl Crasta participated in PM rally and Cdt Hardik Shetty and Cdt Niroop participated in Guard of Honour contingent. WORLD ENVIRONMENT DAY CELEBRATION:

World Environment Day is celebrated every year on June 5th and is the United Nations' principal platform for encouraging worldwide awareness and action for the protection of our environment. It was first established in 1972 during the UN Conference on the Human Environment held in Stockholm, Sweden. Each year, a different country hosts the event and a specific theme is chosen to focus on a pressing environmental issue such as pollution, climate change, biodiversity loss, or plastic waste.

The day serves as a powerful reminder of our individual and collective responsibility to protect and preserve the natural world. It involves participation from governments, schools, NGOs, businesses, and citizens through tree plantation drives, clean-up campaigns, seminars, rallies, and environmental awareness programs.

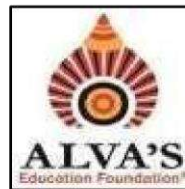

NCC cadets were engaged in a classroom training session, utilizing mobile devices for a technology-based learning activity. A total of 25 cadets participated in poster making. It was held at Alva's institute of engineering and technology, Mijar, Karnataka, showcasing the NCC's focus on

ಒಂದು ಕಾಲದಲ್ಲಿ ತುಳು ಕೇಳುವ ಹಾಗೂ ಮಾತುಕತೆಯ ಭಾಷೆಯಾಗಿತ್ತು. 16ನೇ ಶತಮಾನದ ಬಳಿಕ ಓದುವ ಪರಂಪರೆ ಆರಂಭಗೊಂಡಿತು, 19ನೇ ಶತಮಾನದ ಆರಂಭದಲ್ಲಿ ಬಾಸೆಲ್ ಮಿಶನ್‌ನವರು ತುಳುವಿನ ಪ್ರಸ್ತುತಗಳ ಮುದ್ರಣಕ್ಕೆ ಆದ್ಯತೆ ನೀಡಿದ ಬಳಿಕ ತುಳು ಬರೆಯುವ ಹಾಗೂ ಓದುವ ಪರಂಪರೆ ವಿಸ್ತಾರಗೊಂಡಿತು ಎಂದು ಶಿವರಾಮ ಶೆಟ್ಟಿ ತಿಳಿಸಿದರು.

ತುಳುವಿನ ಓದು ಅಂದರೆ ಅದು

ತುಳು ಬದುಕಿನ ಓದು. ಈ ಓದು ನಮ್ಮಲ್ಲಿ ಜ್ಞಾನ, ಕುತೂಹಲದ ಬಗ್ಗೆ ಪ್ರಶ್ನೆ ಮೂಡಿಸುವುದು. ತುಳುವಿಗೆ ಒಂದು ಶಕ್ತಿ ನೀಡುವ ಸಲುವಾಗಿ ಬರೆಯುವ ಹಾಗೂ ಓದುವ ಪರಂಪರೆಯನ್ನು ಮುಂದುವರಿಸಿ ಕೊಂಡೊಯ್ಯಬೇಕಾಗಿದೆ ಎಂದು ಪ್ರೊ.ಬಿ.ಶಿವರಾಮ ಶೆಟ್ಟಿ ಅಭಿಪ್ರಾಯಪಟ್ಟರು.

ಕಾರ್ಯಕ್ರಮದ ಅಧ್ಯಕ್ಷತೆ ವಹಿಸಿದ್ದ ತುಳು ಅಕಾಡೆಮಿಯ ಅಧ್ಯಕ್ಷ ತಾರಾನಾಥ್ ಗಟ್ಟಿ ಕಾಪಿಕಾಡ್ ಮಾತನಾಡಿ, ತುಳು ಭಾಷೆ, ಸಂಸ್ಕೃತಿ ಬಗ್ಗೆ ಅಗಾಧವಾದ ಪ್ರಸ್ತುತ ಭಂಡಾರವು ಅಕಾಡೆಮಿಯ ಗ್ರಂಥಾಲಯದಲ್ಲಿದೆ. ವಿದ್ಯಾರ್ಥಿ ಯುವಜನರಲ್ಲಿ ತುಳು ಓದಿನ ಅಭಿರುಚಿ ಮೂಡಿಸುವ ಹಿನ್ನೆಲೆಯಲ್ಲಿ

ಅಕಾಡೆಮಿಯ ಬಲೆ ತುಳು ಓದುಗ ಅಭಿಯಾನ ಹಮ್ಮಿಕೊಂಡಿದೆ ಎಂದರು.
